

PRD: Food Delivery App - Vietnam Market (v1.2)

SECTION 1: BUYER ORDER PLACEMENT (VN SCOPE)

Requirement 1.1: Cash on Delivery (COD) and E-Wallet Payment

Buyer in Vietnam can select COD, MoMo, or ZaloPay at checkout.

Expected Result: Order created successfully with status PENDING_MERCHANT.

Evidence: Screenshot of Order Summary UI and API response payload from /orders/create.

Requirement 1.2: Free Shipping Coupon VN

Applying FREESHIP_VN code must discount shipping fee to 0 VND.

Expected Result: Shipping fee shows 0 VND in order summary before payment.

Evidence: Screenshot of payment screen showing 0 VND shipping fee line item.

SECTION 2: MERCHANT ORDER MANAGEMENT

Requirement 2.1: Accept Order Notification

Merchant receives push notification when new order arrives and clicks Accept.

Expected Result: Status changes to PREPARING and driver search is triggered.

Evidence: Screen recording of Merchant app receiving notification and clicking Accept.

SECTION 3: DRIVER PICKUP & DELIVERY

Requirement 3.1: GPS Location Update

Driver location updates on Buyer tracking map every 5 seconds.

Expected Result: Buyer map shows driver icon moving along route in real-time.

Evidence: Screen recording of Buyer live map tracking screen.
